

JAIN Launchpad, the leading Technology Business Incubator, Accelerator, and Seed Fund that serves as a catalyst for innovation and entrepreneurship, actively participated in the 26th edition of the Bengaluru Tech Summit 2023. Recognized as the Asia's Largest Tech Summit, the event took place from November 29 to December 1, 2023, showcasing groundbreaking innovations, fostering industry connections and providing a global platform for tech enthusiasts and entrepreneurs.

As an exhibitor, JAIN Launchpad's stall emerged as a vibrant hub of activities, where its energetic team engaged with diverse audience, including professionals, founders, students, and industry leaders. The stall attracted an impressive footfall of over 500 people, keen on learning about the entrepreneurship initiatives and offerings at JAIN such as CRCE, SreeKutumbh, Student Nirbhar, Incubation and Acceleration programs. Additionally, a lucky draw was organised every day at 4 pm to engage with our target audience. Goodies were given to the winners of Reliance Jio, Skoodle Learning, and Aumirah.

The excitement continued over the three days as JAIN Launchpad hosted numerous delegates and senior industry members at its stall, including Professor S. Sadagopan, the Founding Director of IIIT Bangalore. His appreciation for our contributions marked a proud moment for the entire JAIN Launchpad startup community.

JAIN Launchpad was invited to an exclusive closed-door 'Start-Up Ecosystem Roundtable Meeting', which was held on the day 2 of the Bengaluru Tech Summit 2023 and was represented by Mr. Nayaz Ahmed, CEO, JAIN Launchpad. Mr. Nayaz provided insights to elevate the startup ecosystems in tier 2/3 cities by adopting global best practices. Other diverse stakeholders also contributed to the discussion.

Additionally, Mr. Nayaz received an exclusive invitation as an esteemed industry partner of Beyond Bengaluru for a closed-door interaction with Padma Vibhushan- Prof R A Mashelkar on day 3 of the summit, an initiative supported by the Karnataka Digital Economy Mission (KDEM). This invite-only event provided a unique opportunity for industry leaders to actively participate in a conversation with Prof R A Mashelkar, a distinguished figure in the field of science and technology.

Another major highlight was the significant interest of visitors in Pitch Combat, a competition organized by JAIN Launchpad. The initiative provides a platform for students and founders to present their innovative ideas, offering unparalleled opportunities such as mentoring, networking, and funding. Participants have the chance to pitch their startups to an all-star panel of investors and founders.

JAIN Launchpad had its own Startup Pavilion where several of our portfolio startups had dedicated stalls, enabling them to showcase their products and interact with potential customers. But that's not all, three startups mentioned below, which are part of our investment portfolio had their products launched done by Shri Priyank Kharge, Minister for IT, BT and S&T, Govt. of Karnataka.

- Smartgeniee Miniature FMS Pvt. Ltd.: Launched an app-based Miniature Facilities Management Solutions for individual homes and small enterprises, offering preventive maintenance services with various subscription options for users.
- Deside Healthcare Network Pvt. Ltd.: Unveiled a unique platform serving as a networking hub and event planner dedicated to the healthcare industry. The platform fosters genuine relationships between healthcare professionals and organizations through new-age community management features.
- DocTrue Technologies Pvt. Ltd.: Introduced a real-time queue management system addressing the issue of prolonged wait times in healthcare clinics, simplifying the appointment booking process and enhancing patient satisfaction.

The BTS 2023, organized by the Department of Electronics, IT, BT, S&T, Government of Karnataka and hosted by Software Technology Parks of India (STPI), attracted 500+ exhibitors and 250+ startups across various fields, recording an extraordinary expo footfall of 50,000+ visitors. With a theme of "Breaking Boundaries: Innovations from India, Impact for the World," the summit facilitated connections through physical B2B meetings and virtual connect sessions. Participants from 45 countries contributed to the summit's global recognition, which featured 80+ sessions and insights from 400+ speakers.

As a prominent leader in the entrepreneurial ecosystem, JAIN Launchpad played a pivotal role in bringing stakeholders together and expanding opportunities for its portfolio companies. Committed to enabling innovators and empowering the youth, JAIN Launchpad strives to fulfill the mission of nurturing 8800 startups to contribute 2% to the Nation's GDP, aligning with the vision of Dr. Chenraj Roychand, Founder Chairman of The JGI Group.
